

## FULLY AUTOMATE YOUR REFURBISHMENT PROCESS

### PATENTED TECHNOLOGY\*

Exclusive patented technology allows automation software to capture video output directly from erasure target while USB emulation replicates mouse and keyboard actions—**no cameras, no moving parts, and minimal operator interaction** required.

### VERSATILE

Device Link works on Chromebook, MacBook, Mac Pro, Mac Mini, Mac Studio, and gaming consoles like the Xbox. Our automation software **recognizes both Intel processor types, T1 and T2, and the new Apple M1 chip** as well as any **activation locks**.

### FULLY AUTOMATED

Connect Device Link and let it do the work. This groundbreaking technology uses advanced image processing techniques for a **turnkey solution that automates the complete data deletion and refurbishment** of MacBooks, Chromebooks, and more.

### ADVANCED DATA COLLECTION

Device Link **collects and reports detailed data** from refurbished and deleted devices, including Apple M1 chips. This gives you better refurbishment quality, streamlined operations, and **increased resale value**.

### DIMENSIONS:

**Length:**  
121mm / 4.76in

**Width:**  
90.5mm / 3.56in

**Height:**  
45mm / 1.77in

**Weight:**  
2.2 lbs / 1kg

Go to [ziperase.com](https://ziperase.com) for **NIST** compliant erasure solutions for **MacBooks, Chromebooks, laptops, desktops, servers, and loose drives**

\*U.S. Patent Number: US11711567B2

## FULLY AUTOMATE YOUR REFURBISHMENT PROCESS

### FOR CHROMEBOOKS

#### All-in-One Solution

Device Link is your end-to-end solution for total data security, refurbishment, reporting, and certification. Designed to be your **user-friendly, end-to-end resource for safe and secure Chromebook deletion.**

#### Easy to Use

With just a few clicks, your Chromebook is **securely deleted, with all relevant system information collected and collated** in a systems report with tamper-proof certification included.

### R2v3 Compliant Hardware Testing

- Keyboard
- Touchpad
- Pointing device
- Screen
- Camera
- Audio Input
- Audio Output
- Wireless Network
- Wired Network
- Bluetooth
- USB
- Ports
- Battery discharge

### Eliminate Risk

Saves you from distributing defective products or devices with personal information - **tamper-proof reporting for every device processed.**

### FOR MACBOOKS

#### Erase and Refurb 2x as Fast

Device Link directly refurbishes MacBooks, halving time spent on repetitive manual tasks. It **increases efficiency, quality, and security**, while saving money on labor and time.

#### Follows Mac Processes

Following Apple's security practices, Device Link ensures safe MacBook resale. **Compatible with Apple silicon chips (M1, M2) and Intel chips (T1, T2)**, it **verifies activation locks** and reinstalls MacOS.
